

Heather E. Eves

5607 South 7th Street
Arlington, VA 22204-1237

703.254.7474

heather.eves@aya.yale.edu

Qualifications

- Leading program development, field research, and conservation project planning including capacity-development, priority setting, conceptual modeling, proposal development, budgeting, administration, monitoring, evaluation, building partnerships, network development, event planning and communications
- Scientific research investigating social, economic, ecological, and policy aspects of conservation and development management issues (design, implementation, statistical analysis, monitoring and reporting) - publication in peer-review journals and media outreach to the public
- Multi-institutional networking, project development and management
- Management and administration of capacity-development programs and collaborations
- Leadership capacity development, mentoring, coaching, and academic training including online
- Media and public outreach campaigns

Education and Certifications

2022 eCornell University Ithaca, New York
Certificate Strategic Human Resources Leadership: Aligning HR Strategy with Organizational Strategy, Diversity and Inclusion, Talent Management, Strategic Engagement, Strategic Talent Analytics, HR Leadership

2021 Coach Training Alliance | Conservation Coaches Network Ft. Collins, Colorado | Global
Certified Professional Coach | Certified Conservation Coach (CCNet)

2006 Yale University New Haven, Connecticut
Doctorate of Forestry and Environmental Studies
Dissertation: The Bushmeat Crisis in Central Africa: Resolving a Common Pool Resource Problem in the Common Interest [A Policy Sciences Analysis]

1994 New Mexico State University Las Cruces, New Mexico
Master of Science
Major Subject: Wildlife Science, Minor Subject: Experimental Statistics; Thesis: Investigation of a Monitoring System for Yellow-necked Spurfowl (*Francolinus leucoscepus*) on a Game Ranch in Kenya

1986 University of New Hampshire Durham, New Hampshire
Bachelor of Science
Major Subject: Animal Science, Minor Subject: Pre-Veterinary Medicine

Professional Experience

2008 – Present Capacity Development - Academics – Program Management Africa, Caribbean and US
Academic Professor, Consultant, and Coach
Providing academic courses, mentoring, coaching training, and capacity-development through professional work in undergraduate, graduate, leadership, and collaborative programs in the United States, Caribbean and Africa | Expert on bushmeat, conservation and development, cross sector analysis of nature and human well-being, program design and planning:

Professional Experience

Academic Professor, Consultant, and Coach (Continued)

- **Virginia Tech, College of Natural Resources and Environment, Associate Professor of Practice** [January 2009 – present] for the Center for Leadership in Global Sustainability (CLiGS) online graduate program mentoring students, chairing/serving on Capstone committees, and providing graduate courses in Global Issues in Natural Resources Management, Conservation Project Planning -Adaptive Management (including *Miradi* Software), International Conservation and Development and Independent Studies. Completed Master Online Teaching Certification July 2012. (25 hrs/wk Spring Semester)
- **Johns Hopkins School of Advanced International Studies (SAIS), Professorial Lecturer** [January 2010 – present] in Energy, Resources and Environment (ERE) program providing graduate course in International Wildlife Conservation and Development and advising graduate consulting teams in one-year applied problem-solving course - International Environmental Policy Practicum - working with international professional clients as junior consulting teams to address organizational challenges. (10 hrs/wk Fall / Spring Semester)
- **Conservation Leadership in the Caribbean, Board of Directors, Member** [May 2014-present] Collaboratively design and implement fellowship program for 20 emerging conservation leaders in the Caribbean. Fellows work in teams to plan and implement biodiversity conservation and development projects in the field over an 18-month period including academic coursework, community and partner engagement, proposal development and leadership skills. (15 hrs/wk)
- **USAID / Pragma Corp., Consultant** [August-September 2018] Evaluate and update Bureau of Africa on recent literature, activities and perspectives on bushmeat including over 40 interviews of USAID personnel, literature review resulting in a database of 150+ peer-reviewed articles, and summary report and recommendations for actions toward cross-sector engagement in health, development, and environment to address wildlife and human well-being needs. (30 Days)
- **The Nature Conservancy, Program Manager-Contract, Bridge Collaborative** [October 2016 – January 2018] Manage initial phase for global organizational partnership that leads cross-sector collaboration in health, development, and the environment including coordination of scientists and practitioners for document development, event planning and management, website development, contracts and sub-grants for partners. (Full Time)
- **Wildlife Conservation Society, Consultant, Wildmeat Proposal** [Spring 2016] Support multiple country leaders in preparing work plans and log frames for seven-year collaborative funding proposal to address wildlife conservation and human livelihood priorities in tropical regions.
- **Jane Goodall Institute/Foundations of Success, Consultant** [Spring 2015] Support five-year review of conservation project planning and implementation for chimpanzee management in Tanzania, training in *Miradi* software for JGI staff and *Open Standards for the Practice of Conservation* training for JGI staff and associates. (120 hrs)
- **PCI Media Impact, Principal Investigator and Consultant** [August 2013-August 2014] leading a monitoring and evaluation research project for PCI Media Impact with BEAN to assess the impacts and outcomes on knowledge, attitudes and behaviors of listeners in Tanzania for a 25-week radio drama on wildlife conservation and development. This project provides capacity building for team members in research design, data collection, analysis, reporting and communications with the general public. (10 hrs/wk)
- **St. George's University, Grenada, Professor** [Academic Year 2012-2013] teaching undergraduate courses in General Biology, Mammalogy, Advanced Conservation Planning (Adaptive Management), supporting undergraduate practicum internships and serving on university committees (Faculty Promotions, IACUC and as requested). (Full-Time)
- **Bushmeat-free Eastern Africa Network, Chief Technical Advisor** [2009 – 2012] developed a communications strategy and communications materials for key decision makers in East Africa with the Bushmeat-free Eastern Africa Network [BEAN: www.bushmeatnetwork.org] and provide continuous conservation planning and implementation support to a team of eight trained professionals in four countries working as a network to address the bushmeat trade in the East Africa region through application of adaptive management planning. (10 hrs/wk)
- **College of African Wildlife Management, Mweka, Tanzania** [January 2008 – December 2009]: **Fulbright Senior Specialist** grantee (June and December 2009) and **Trainer** (February, April and August 2008) to provide academic and leadership training in conservation and development project planning, field research and management for a post-graduate program addressing the bushmeat trade and creating an East Africa bushmeat professional network. (15 hrs/wk)

Professional Experience

2000 - 2009 Bushmeat Crisis Task Force Washington, DC

Director

Senior officer in charge of project development and operations for this multi-organizational collaborative effort focused on information management and analysis, policy development, public awareness and education toward collaborative solutions to the bushmeat crisis in Africa. Responsibilities include: strategic planning, communications budget management, media relations, government communications, fund-raising, research and conservation project design and development, networking, website design-management-maintenance [www.bushmeat.org] and training conservation professionals, Steering Committee and Supporting Member communications and relations, supervision and direction of personnel [Assistant Director and Information Management Coordinator], interns/volunteers and dozens of graduate students, preparation of publications, organization of events and professional meetings, presentations at professional and international governmental meetings (CITES, CBD). Managed development of Department of State administered Coalition Against Wildlife Trafficking (CAWT) program website [www.cawtglobal.org].

1999 Conservation International Washington, DC

Consultant

- Team member to the Center for Applied Biodiversity Science on the West Africa Bushmeat Initiative. Responsibilities included preparation of project report concerning impact of bushmeat hunting on wildlife populations and role of protected areas in West Africa, attendance at West Africa Bushmeat Workshop in Ghana – December 1999, and general collaboration concerning development of research and conservation recommendations for the region. (September-December)

1994 - 1998 Yale University New Haven, Connecticut

Doctoral Student-Candidate

- Doctoral degree in the School of Forestry and Environmental Studies. Primary dissertation focus included social, economic and ecological factors affecting duiker antelope (*Cephalophus* spp.), and a Policy Sciences analysis of wildlife management in northern Congo and a professional bushmeat collaborative in Washington DC. Established the African Natural Resources Group and arranged professional training workshop in Participatory Rural Appraisal. Received training in multivariate statistics and metapopulation analysis at University of Idaho, August 1997.
- **Sangha River Network:** As a Yale Doctoral Student co-organized, raised funds and edited published proceedings for a multi-departmental and international conference for over 100 participants from Africa, Europe and the United States: *Natural Resource Use Relations in the Sangha River Region Northwestern Congo River Basin*, September 1997, held at Yale University. Co-Director for the Sangha River Network - a professional research network for the Sangha River Region of Central African Republic, Cameroon, and Republic of Congo based at Yale University Council on African Studies. Secured funding for and maintained the Sangha River Network Website [<http://www.yale.edu/sangha>].

1995 - 1996 Wildlife Conservation Society Bomassa, Congo

Consultant

- Principle investigator involving design and implementation of research concerned with the socioeconomics of wildlife use among 24 villages associated with the buffer zone region of the Nouabalé-Ndoki National Park. Developed methodology, carried out a pilot study, designed statistical programs for data analysis (SAS), designed and implemented a training program for 12 Congolese research assistants, monitored all data collection activities, analyzed all data, submitted summary reports to WCS and World Bank and published book chapter in peer-reviewed volume.

Professional Experience

1992 - 1994 Game Ranching Ltd. Athi River, Kenya

Principal Investigator

- Master of Science research project involving gamebird hunting policy management and economics through community wildlife development. Responsible for experimental design, data collection, analysis, funding procurement including a Fulbright Grant, acquisition of research permits and affiliation with University of Nairobi in order to conduct research in Kenya. Trained Kenyan field assistants and Project Co-Leader. Additional funding obtained for the continuation of the project development on Maasai Group Ranches in Kajiado District, Kenya and project turned over to Kenyan counterpart. Assisted with teaching of university level courses in Wildlife Habitat Management, Principles of Wildlife Management, and Statistics for the School for Field Studies (US-based university semester abroad program).

1991 - 1992 New Mexico State University Las Cruces, New Mexico

Research Assistant

- Department of Wildlife Sciences: Responsible for development of an integrated environmental education program including water, air, wildlife, energy, and agriculture issues. Writing of funding proposal for expansion of program throughout western United States. Trained in Project WILD for teachers and trainers.
- Plant Pathology Department: conducted literature search for history of vegetation in New Mexico with focus on *Astragalus* spp. and *Oxytropis* spp. Collected and prepared specimens on statewide basis. Laboratory tests and cultures prepared to identify pathogens associated with locoweed. Review of herbarium specimens from four herbaria in New Mexico and Texas.

1989 - 1991 William Holden Wildlife Foundation Nanyuki, Kenya

Education Coordinator

- Senior officer in charge of all education center operations. Responsibilities included design and implementation of the following: education center syllabus for wildlife and environmental education programs; rural library program development; university internship program; procedure manual for education center operations; environmental demonstration projects. Other responsibilities included: staff training; payroll; budget; project proposal writing; vehicle maintenance; education programs for all student groups; public relations and administration. Created Project WILD workshop for Ministry of Education personnel for consideration of developing Project WILD Kenya program.

1986 - 1988 U.S. Peace Corps Kibwezi, Kenya

Science and English Teacher

- Instructor of physics, chemistry, biology, and English at the secondary school level. Planned weekly and yearly schemes for lessons according to national syllabus. Established and directed a wildlife club working closely with Wildlife Clubs of Kenya. Conducted field trips and facilitated club projects. Organization and administration of school library including acquisition of materials. Assisted local women's group with planning a small business for local community development.

Grants, Fundraising, and Professional Fellowships

2014 *USFWS Capacity Development Grant* - \$340,000+ with colleagues to support development of an 18-month leadership and capacity development project (2014-2016) based in the Caribbean. Grant awarded to International Fund for Animal Welfare (IFAW) and St. George's University (SGU) from US Fish and Wildlife Service Latin America and the Caribbean Program. Continuing funds for co-operative agreement extension approved to support (2017-2018) cohort for 20 fellows.

2014 *Science Case Network Fellowship* – individual fellowship received for funding and support to develop targeted conservation case studies and adapted case studies for online use to enhance student learning, capacity to problem-solve and critical analysis skill development.

Grants, Fundraising, and Professional Fellowships

2009 *Fulbright Senior Specialist Grant* – participation in academic training and professional development at the College of African Wildlife Management, Mweka, Tanzania, J. William Fulbright Foreign Scholarship Board and Council for International Exchange of Scholars, Washington D.C.

2000-2008 Over \$1,000,000 in funds raised (beyond annual operational budget from member) to support bushmeat related projects in Africa through the Bushmeat Crisis Task Force including grants from United States Agency for International Development (USAID), United States Fish and Wildlife Service (USFWS), United States Forest Service, United States Department of State, World Wildlife Fund US Russell E. Train Education for Nature Fund, and the John D. and Catherine T. MacArthur Foundation.

1997-1999 Over \$150,000 in funds collaboratively raised for the Sangha River Conference and Network, based at Yale University, including The Kempf Memorial Fund, The Coca-Cola World Fund at Yale and United States Agency for International Development (USAID – CARPE/BSP)

1997 *Individual Student Scholarship*, Yale School of Forestry and Environmental Studies

1994-1998 *Doctorate of Forestry and Environmental Studies Fellowship*, School of Forestry and Environmental Studies, Yale University

1995 *Predissertation Grant*, Center for International and Area Studies, Yale University

1993-1994 *Fulbright Research Grant*, J. William Fulbright Foreign Scholarship Board and United States Information Agency, Washington, D.C.

1992-1993 *Biodiversity Conservation Scholarship*, The Wildlife Society, New Mexico Chapter

Professional Affiliations and Capacity Building

2019 – 2021 African Journal of Ecology, Technical Editor

SSC Antelope Specialist Group, IUCN, Gland, Switzerland

SSC Primate Specialist Group, Great Apes Section, IUCN, Gland, Switzerland

2014- Present Conservation Leadership in the Caribbean (CLiC) Board Member

2014-Present William Holden Wildlife Foundation, Kenya, Board Member

2005- 2014 Emerging Wildlife Conservation Leaders (EWCL) Board Member, Washington DC

2007-2012 Caretakers of God's Creation, Mt. Olivet UMC, Arlington, VA

2008 Indianapolis Prize Nominating Committee Member

2009 - 2012 Project WILD Workshop Facilitator, Virginia

2009 - 2010 EnviroVet Faculty, Providing presentation and information to international veterinary training program on bushmeat at White Oak Conservation Center, Yulee, Florida

2010 – 2012 Member Editorial Advisory Board, *The Wildlife Professional*, The Wildlife Society, Bethesda, Maryland
